

New Hope Creek Corridor Advisory Committee  
Durham Southwest Public Library  
May 11, 2004, 5:00 p.m.  
Present: Muriel Easterling, Mike Giles, John Kent, Hildegard Ryals,  
Rich Shaw

We were thrown for a loop, with the resignation of Marc deBree. Not only do we need a new chairman, but we need someone to head up the subgroup, "Review Development Proposals". We welcome suggestions for a new committee chairman and subgroup chairman.

Mike Giles suggested that the NHCC Master Plan needs updating. Giles and Rich Shaw noted that both Durham and Orange counties are in the process of updating their comprehensive plans. Planning directors from Durham City/County, Chapel Hill and Orange County, are being invited to present their comprehensive plans and discuss the inclusion of revising the NHCC Master Plan.

All present were agreeable to changing our regular meeting day to a Wednesday. However, we will schedule the above presentations according to the availability of the planning departments, and will let you know when they are confirmed.

Reports were handed out for the Stewardship, Educating Community and Relations with Stakeholders subgroups. Since then, Rich Shaw has drafted one for "Review Development Proposals", and Lorelei Costa has submitted one for the "Monitor Progress" subgroup. (Lorelei is leaving TLC, and Jeff Masten will take her place.) All reports will be available at the next meeting.
